*Full-stack developer with 5+ years of remote experience building AI-powered SaaS products in accounting automation, compliance and market intelligence, owning work from UI design through back-end services and deployment.*

## EDUCATION

---

### Addis Ababa University

BSc, Computer Science

Expected Jun 2027

Addis Ababa, Ethiopia

Coursework: Data Structures & Algorithms, Object-Oriented Programming, System Design & Architecture, Software Engineering, Programming Languages (C++, Python, Java, JavaScript, PHP), Linear Algebra, Numerical Analysis.

### A2SV (Africa to Silicon Valley)

Competitive Programming & Data Structures

Dec 2025 – Dec 2026

Solved 600+ algorithmic problems across [LeetCode](#) and [Codeforces](#) in a selective, peer-based program covering advanced data structures, algorithm design, complexity analysis, and mock technical interviews.

## EXPERIENCE

---

### Count — AI-Powered Accounting Platform

Jun 2026 – Present

Full Stack Developer

Remote

- Developing full-stack features for an AI-powered accounting ledger that automates reconciliations, transaction categorization, and document handling for accounting firms.
- Building front-end interfaces and back-end services supporting invoicing, receipt capture, and bank-feed matching workflows.

### ACA Encore — AI Compliance Software

Sep 2025 – Jun 2026

Full Stack Developer

Remote

- Developed and maintained full-stack features for an AI-powered compliance platform that transcribes and analyzes investment research and expert-network calls to surface potential risks.
- Built responsive front-end interfaces and back-end services supporting call transcription review, real-time risk detection, and compliance reporting workflows.

### AlphaSense — Market Intelligence Platform

Oct 2023 – Aug 2025

Full Stack Developer

Remote

- Contributed to front-end and back-end development of features for a market-intelligence platform, collaborating with a cross-functional team from implementation through delivery.

### Upwork — Multi-Game Tournament Platform

Jan 2023 – Sep 2023

Full Stack Developer

Remote

- Developed a dynamic full-stack web application for managing multi-game tournaments, owning everything from UI design to deployment.
- Streamlined the organization of complex gaming events with an intuitive user experience and robust functionality.

### Flowster

May 2021 – Aug 2023

Full Stack Developer

Remote

- Contributed to front-end and back-end development for medium- to large-scale features, handling bug fixes and ongoing maintenance alongside the team.
- Implemented a redesigned UI and integrated affiliate-marketing functionality.
- Integrated email functionality to improve customer engagement and communication.

### Medstore.et

Jan 2021 – Apr 2021

Full Stack Developer

Freelance

- Built a full-stack e-commerce web application ([medstore.et](#)).

### Yeha Room

Nov 2020 – Mar 2021

Back-End Developer

Addis Ababa, Ethiopia

- Built a back-end implementation for [room.et](#).
- Built a news web scraper and a Telegram bot.

## TECHNICAL SKILLS

---

**Languages:** C++, Python, Go, Java, JavaScript, TypeScript, SQL, Dart, PHP

**Systems & Infrastructure:** lock-free programming, memory ordering, Linux, Docker, Kubernetes, CI/CD, GitHub Actions, load testing, Redis

**Backend & Data:** Node.js, Express, NestJS, FastAPI, Gin, PostgreSQL/PostGIS, Prisma, Supabase, data pipeline design

**ML:** PyTorch, scikit-learn, OpenCV, Transformers, semantic embeddings, reinforcement learning

**Frontend:** React, Next.js, SvelteKit, Flutter
